

Raspberry Pi/PiRyte Board Mounting Base  
Drill Template

# Raspberry Pi/PiRyte Board Mounting Base Drill Template

July 14, 2016

Almost any sturdy material may be used as a base for mounting a Raspberry Pi/PiRyte stack such as 1/8 inch Masonite or Plexiglass. Use this template to drill the appropriately sized holes.

## **Drill Bits Required:**

- 1/8" for the 3.25mm holes
- 7/64" for the 2.75mm holes

## **Recommended Screw Sizes:**

- M3 for the 3.25mm holes
- M2.5 for the 2.75mm holes (#4-40 will work in a pinch)
